IN THE STATE OF NEW JERSEY	:	

This matter was opened to the New Jersey State Board of Nursing (" Board") upon receipt of respondent's petition for release from a one-year term of probation imposed pursuant to a

consent order entered on February 12, 2013. The probation had been imposed as a condition for granting Ms. Davis's application for licensure because she had disclosed a shoplifting conviction in 2009 when she had applied to the Board for licensure.

The Board having established that there have been no subsequent arrests or convictions, the sole conviction having conviction occurred four years prior to respondent's being granted licensure, according to the conditions of the 2013 consent order, and for other good cause shown;

IT IS on this 21st day of April, 2014

HEREBY ORDERED AND AGREED that:

1. Respondent's petition for release from probation is hereby granted. Respondent's nursing license is accordingly no longer subject to any restriction or encumbrance.
